

Layer 1: Raw simulation data

Available in open repository (e.g. Zenodo)

Layer 2: Indexing of simulation data using universal naming convention

<https://github.com/NMRLipids/Databank>

Layer 3: Applications

- Graphical access: <http://databank.nmrlipids.fi/>
- Automated analyses
(e.g. github.com/NMRLipids/DataBankManuscript,
<https://github.com/NMRLipids/DatabankExercises>)
